

Cylindrical fold-away grips

Item description/product images

Description

Product description:

Novo-Grip cylindrical grips are a product with a universal range of applications thanks to the harmonic combination of form and function. Esthetics, reliability and perfect handling characterize their quality.

Material, surface finish:

Anthracite grey thermoplastic.

Steel parts black oxide finish.

Note:

Cylindrical grips are supplied assembled and can be screwed to handwheels, spools and cranks.

Borehole D3 is used as a positioning hole.

Cylindrical fold-away grips
