

Ball transfer units with steel housing and plastic ball

Item description/product images

Description

Material:

Electro zinc-plated steel.
Polyamid PA 66 ball.

Note:

Ball transfer units with plastic balls are particularly suitable for transporting sensitive materials such as polished aluminium, brass and steel sheets or glass. They have a felt seal to protect against dirt.

Drawing reference:

- 1) load ball
- 2) bearing balls

Form B: cap and housing electro zinc-plated, bearing balls steel.

Form C: cap and housing electro zinc-plated, bearing balls stainless steel
